

SOLAR STATIONS ACCESSORIES

CONNECTION SET BETWEEN SOLAR STATIONS AND TANK

Product description

The connection set consists of two insulated stainless steel connecting pipes and allows the solar stations SF25, SF50, SSR25, SSR 50 and SSRH50 to be connected to the FS tank (connection to solar station with compression fitting and to tank with flat seals).

Specifications

Type	AS-SSR 25
Item no.	1510317
Connecting pipe	Stainless steel
Length	Approx. 245 mm
Dimension	DN 25
Max. pressure	10 bar
Min. one-time bending radius	55 mm
Insulation	EPDM pipe insulation with plastic rosettes at ends
Transition piece	Brass
Connections	G1" male up to 22 mm
Flat seal	AFM 34 light grey, 30 x 22 x 2 - 1"
